1.14 All disputes arising under, out of, or in any way connected with this Agreement shall be governed by and construed in accordance with the laws of the Commonwealth of Massachusetts without reference to conflict of laws principles. Licensee agrees that its actual or threatened breach of this Agreement will cause PTC irreparable harm, the damages of which are difficult to ascertain, and in such event, without limiting PTC's other rights and remedies, PTC shall have the right to seek equitable and injunctive relief (including specific performance) to prevent or enjoin the same.

2. Royalty-Free License

2.1. Restrictions to the Royalty-Free License

The royalty-free license does not grant production usage rights and is restricted to develop Extensions on a development environment. Development environment means any server that is not used for Production, but does include all test and QA environments.

The EDK is only to be used for the development of Windchill Extensions.

The developer must not attempt to circumnavigate the security of the platform, or put in place any procedure to assist a 3rd party to do the same, for any purpose, including to allow Extensions not signed by the approved authority to be executed in a production environment

2.2. Grant of Royalty-Free License

Subject to the restrictions contained in Section 2.1 *(Restrictions to the Royalty-Free License*) above, PTC grants to You a non-exclusive, non-transferable, royalty-free license to use the items in the EDK only for the purpose of development of Extensions designed to function with Windchill©.

Under this Agreement, You may use, modify or merge all or portions of the Sample Code with Your Extension and distribute it only as part of Your products in object code form. Any modified or merged portion of the Sample Code is subject to this Agreement. You may not use PTC or PTC's name, logo or trademarks to market Your products. You may not assign Your rights or obligations granted under this Agreement without the prior written consent of PTC. Any attempted assignment or transfer without such prior written consent from PTC shall be void and of no effect.

Subject to the permissions in the preceding paragraph, You may use the EDK solely for the purpose of internal development. You may not include any portion of the EDK in Your Extensions or products, except for Sample Code in object code form as permitted in the preceding paragraph. You may not sell, sublicense, rent, loan or lease any portion of the EDK to any third party. You may not reverse engineer, decompile or disassemble any portion of the EDK.

3. Production Licensing and Signing

An Extension must be signed by an approved signing authority to be used in production. No unsigned Extension may be installed, executed or tested in any production system. PTC retains the right not to sign an Extension for any reasonable reason including, but not exclusively: Security, Quality, third-party licensing, etc. Signed Extensions cannot be labelled or distributed as approved or certified by PTC.
